

## RC 756 respirators

*Lightweight, comfortable respirators efficient for each type of paint and compliant with the latest european norms (Respirator : EN 140, Filters : EN 14393)*

Features	Benefits
Respirator body made of silicone	Hypoallergenic and high comfort
Equipped with large inlet and outlet valves	Easy breathing
Double strips attach	Comfortable
Double filters	Performance (large diameter) , visibility and high level of safety
Three high performance filters type available	For an optimal protection whatever the type of paint used

### CONFIGURATION OF THE RC 756 RESPIRATOR

Designation	Part number
RC 756 respirator	<b>143.380.100</b>
RC 756 respirator for SOLVENT-BASED PAINTS - A1 filters	<b>143.380.200</b>
RC 756 respirator for WATER-BASED PAINTS - A1B1P3 filters	<b>143.380.300</b>
RC 756 respirator for PLURAL COMPONENT PAINTS - ISOCYANATES - A1B1E1K1P3 filters	<b>143.380.400</b>

### FILTERS & PRE-FILTERS

Designation	Type	Quantity	Part number
Filters for solvented paints	A1	10	<b>143.380.210</b>
Filters for water-based paints	A1B1P3	5	<b>143.380.310</b>
Filters for plural-components-isocyanates	A1B1E1K1P3	5	<b>143.380.410</b>
Pre-filters for A1 filters	-	25	<b>143.380.110</b>

### ACCESSORIES

Designation	Quantity	Part number
Attach strap	1	<b>143.380.120</b>
Spare inlet/outlet valves	3	<b>143.380.130</b>
